

NO-TILL COVER CROP FIELD DAY!!

Join the **Champlain Valley Crop Soil & Pasture Team** and **Deer Valley Farm** as we share our preliminary results from our Cover Crop Diversity in No-Till Systems SARE Partnership Project. Come check out our on-farm research plots of two different cover crop mixes in corn silage on clay soils.

Some Highlights & Discussion Will Include:

- Two different three way cover crop mixes...plus Winter Rye for comparison
- Both mixes (and rye) interseeded into the standing corn crop & no-till drilled after corn harvest
- See our No-Till Grain Drill up close
- Manure, cover crops, and no-till...all on clay soil!
- No-till vs. fall plow
- Cover crops as forage crops...potentials and pitfalls
- Hear about upcoming cover crop work and give us input on what you want to learn more about
- Great discussions with your neighbor farmers, agronomists, and technical service providers.

Individuals requesting a disability-related accommodation to participate in this program should notify us immediately to make arrangements.

WHEN:

Friday, November 8th
10:00—11:30 AM

WHERE:

North Ferrisburg, VT
See other side for a map of field location

HOW MUCH:
