

Alexandra Millar	MS Student	<p>My research focuses on understanding how people think about and relate to issue of aquatic pharmaceutical contamination in order to develop better outreach and communication strategies for take-back programs. I will be interviewing UVM students this fall and I am primarily looking for assistance with transcription.</p>	<p>Ideally: Interest/experience in qualitative research and research at intersection of human and environmental health. Experience with transcription would be a plus. Not necessary, but I'm happy to work with someone who is interested in learning more about data collection and analysis, as well.</p>	<p>Flexible. approx. 5/hrs per week - may be more or less depending on the number of interviews.</p>	Unpaid	<p>Please email with a resume and a paragraph explaining your interest in this work and related skills/experience.</p>	<p>Alexandra.Millar@uvm.edu</p>
