CULTIVATING HEALTHY COMMUNITIES

Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the United States Department of Agriculture. University of Vermont Extension, Burlington, Vermont. University of Vermont Extension, and U.S. Department of Agriculture, cooperating, offer education and employment to everyone without regard to race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or familial status. Any reference to commercial products, trade names, or brand names is for information only, and no endorsement or approval is intended.

COLLEGE OF AGRICULTURE AND LIFE SCIENCES

Our Business Skills Workshops present tools and techniques that will help logging businesses plan for success and make money. Successful operations need to nimbly navigate the dynamics of markets, technology, and regulations. It's as important as ever that business owners sharpen their business skills. Learn to use key financial standards, to estimate your cost of production, how to increase marketing effects, and plan for success.

Policy

Sam Lincoln, Deputy Commissioner at the Vermont Dept. of Forests, Parks and Recreation

Sam Lincoln, who formerly operated a mechanized timber harvesting operation in Central Vermont, will present information on FPR's legislative priorities for the 2019 legislature and use recent examples of how you can communicate with elected officials and successfully encourage them to support the forest economy.

Update on market trends in northern New England

Paul Frederick, Vermont Dept. of Forests, Parks and Recreation

This presentation will provide updates on recent developments in local markets and industry trends.

Estimating Logging Job Costs and Projecting Financial Performance

Steve Bick, Northeast Forests, LLC and Sam Lincoln

Steve and Sam will show you how to both estimate your daily operating costs and develop a site assessment in order to decide on the best schedule and terms for a financially successful harvest. Their presentation will include some of the best smartphone apps to factor in soil types, terrain, and skidding/forwarding distances when assessing your site.

Vermont Forest Industry Network Update

Christine McGowan, Vermont Sustainable Jobs Fund

The Vermont Forest Industry Network was officially launched at this year's 1st Annual Vermont Forest Industry Summit held at Burke Mountain Resort in June with more than 150 attendees from throughout Vermont's forest and wood products supply chain. Get an update on efforts within the Network to expand markets for Vermont's forest and wood products and help businesses within these vital sectors to thrive.

Marketing Your Business

Christine McGowan, Vermont Sustainable Jobs Fund

Whether you are trying to reach new customers or B2B (Business-to-Business) clients, this session will help you build the skills needed to successfully market your forest products business and tell your unique story. In this session, you'll learn how to develop a simple marketing plan that meets your unique business needs, use story-telling as an effective marketing strategy and access free or affordable marketing tools to reach your customers where they are.

One-Hour Business Plans & Planning Templates for Loggers

Chris Lindgren, UVM Extension

Business planning in the forest industries needs to be dynamic and proactive in order to keep up with today's constantly shifting market landscape. These planning templates help you quickly produce a business plan to be used to set strategies and adjust with new developments. Use what you learn to guide your business for the coming year.
