EVEN T MAP - MINOOSKI RIVER IN FALL

THE PHENOLOGY

On all the components of the forest,
I have noticed but to feel intently
bridge as spirits.
Pray to reconsider my footing on a new shiny
To see the forest in the mark of automation.
This is the best day.
To continue forward that afternoon, I think now.
This air is moist and cold, and feels heavy in my chest.
When down on a morning morning, coffee in hand.
