Main Sources: Wikipedia and Kyiv Post. For regional governors: [http://www.worldstatesmen.org/Ukraine\\_prov.html](http://www.worldstatesmen.org/Ukraine_prov.html). In general political parties are oriented towards personal affiliation rather than ideology with the exception of the fascist party Svoboda. The many oligarchs and their closely related persons in the government and as governors is here indicated with its own color, instead of a neutral technocratic or party color. There are quite a few more connections to oligarchs than indicated here. Maidan activists have received many governmental posts. When they are linked to the far right sector as leaders or supporters of Bandera and Dontsov their color is black, otherwise yellow. The initiator of Ukraine-NATO working group is indicated with a NATO flag.
