

IRRIGATION & TILE DRAINAGE TOOLS FOR PASTURE PRODUCTIVITY

Join us for a full day of discussion on two topics generating a lot of interest lately—**irrigation and tile drainage in pasture systems**.

Irrigation specialist, **Jim Peeler** of Charles W. Harris Irrigation in Brimfield, Massachusetts will start the day with considerations for designing and implementing an irrigation system for pastures. Dairy farmers **Tyler Webb** of Fairfield, VT and **Earl Fournier** of Swanton, VT will talk about the in's and out's of the irrigation systems in place on their farms. Tyler utilizes a traveling gun irrigator and Earl uses an Irripod system. Come hear about the logistics of each!

After lunch, **Eric Young** from the Miner Institute in Chazy, NY, will update us on research evaluating the management of tile drainage systems to optimize nutrient integration and retention in soils.

9:30 am: Coffee and Registration

10:00 am - 12:15 pm: Pasture Irrigation session with Jim Peeler, Earl Fournier and Tyler Webb

12:15 - 1:15: Lunch provided by Pratt's Deli

1:15 - 1:30: The Champlain Valley Farmer Coalition needs you! Hear about how this group of farmers is working to promote farming practices that improve water quality

1:30 - 3:00: Tile Drainage session with Eric Young

We'd love to see you there!
Cheryl Cesario, UVM Extension
