

Inter-professional Graduate Education in Trauma and Resilience

Who: Students from education, child welfare, and mental health. Included current pre-service students and current practitioners.

COURSE SEQUENCE

Foundational

- The Trauma Lens: Understanding core concepts of trauma and resiliency, or
- Society, stress and brain

Interprofessional

- Trauma-informed, resiliency based, and inter-professional practices in schools and social service agencies

Applied

- Trauma-informed systems change in schools and human service agencies
- Trauma-informed & evidence-based practices with children and families

Integrative

- Applied Practice Project
- Student-driven

Students take 3 of 5 courses for a Level 1 Certificate of Completion

Students take 5 courses for a Level 2 Certificate of Graduate Study

What this means:

✓ Build a collaborative trauma-informed child and family service system to efficiently and effectively respond to the needs of children, youth, and families impacted by abuse and neglect.

✓ Pre-service and in-service education helps achieve a skilled and effective workforce across professional settings.

For more information:

<https://learn.uvm.edu/program/trauma-informed-practices/curriculum/>

Goal:

Increase the number of professionals across professions who enter the field ready to build resilience by supporting the strengths and complex needs of children, youth, and families who have experienced adverse life experiences

Participation in program led to pre-post change improvements on:

trauma knowledge

job-related self-efficacy

trauma skills application

interdisciplinary collaboration and inter-professional practice
